CAREER OBJECTIVE

To obtain a position in a technology-driven environment where I can apply my skills in frontend and backend development, data processing, and system design, while continuously enhancing my technical abilities and contributing to a dynamic and innovative team.

WORK EXPERIENCE

Full-stack developer and QA Tester (Internship) **June 2025 - July 2025**
Institutional Planning and Development Ofiice (IPDO)
Batangas State University-TNEU, Pablo Borbon Campus

- Developed and maintained web application features using frontend and backend technologies
- Performed QA testing to identify bugs and improve system performance
- Designed and refined UI/UX to improve usability and overall application flow
- Collaborated with team members using Git for version control

Tools & Technologies: Laravel, PHP, PostgreSQL, Figma, Git, GitHub

SKILLS

TECHNICAL SKILLS

- Web Development: HTML, CSS, JavaScript, React, Tailwind CSS, Laravel (PHP)
- Programming Languages: C, C++, C#, Python, Java
- Databases: MySQL, PostgreSQL, Firebase
- Data Engineering: SQL, data extraction, transformation, data manipulation, ETL processes, data pipeline development
- Software Development: SDLC methodologies (Waterfall, Agile)
- UI/UX & CMS: Figma, WordPress
- Version Control: Git, GitHub
- Cloud Deployment: Render
- Machine Learning: YOLO, Scikit-learn, Pandas
- AI-Assisted Development: ChatGPT, Claude, AI-assisted coding

WORK SKILLS

- Problem-solving
- Communication
- Time management
- Team collaboration
- Adaptability
- Attention to detail

EDUCATIONAL ATTAINMENT

Bachelor of Science in Computer Science **August 2022- July 2026**
Batangas State University, The National Engineering University - Alangilan

Science, Technology, Engineering, and Mathematics (STEM) **June 2016 - June 2022**
Leuteboro National High School

Felomino C. Mendoza Subaan Elementary School **June 2009 - March 2016**

PROJECTS

Agrimart

E-commerce platform connecting farmers, sellers, and buyers by enabling product listing, browsing, ordering, and payment processing.

Role: Fullstack Developer, Software Tester

Tools & Technologies: HTML, CSS, Javascript, MySQL, Python (Flask), Google Firebase

GeoMinder

Location-based task reminder app that sends reminders when users enter or leave designated locations.

Role: Fullstack Developer

Tools & Technologies: Android Studio, Google Services,, Firebase, Google Places API, AndroidSVG, GeoFencing and OkHttp

WattWise

IoT-based system that monitors energy usage and intelligently turns plugged-in appliances on or off.

Role: UI/UX designer, Frontend Developer

Tools & Technologies: Figma, React, Tailwind CSS, Javascript

Enhanced YOLOv12 for Multi-Class Face Accessories Detection

Machine learning project focused on enhancing YOLOv12 for multi-class facial accessory detection with real-time API testing.

Role: Machine Learning Researcher

Tools & Technologies: Python, PyTorch, Ultralytics YOLOv12, OpenCV, NumPy, Pandas, Scikit-learn, DeepSORT, MOTMetrics, PyCOCOTools, FastAPI

ACHIEVEMENTS

- Dean's Lister — 1st Year & 2nd Year, (2nd Semester), 4th Year
- Graduated with High Honors in Senior High School

CERTIFICATIONS & TRAININGS

- **CCNA Introduction to Networks Course** — **January 22, 2024**
  CISCO
- **AWS Academy Graduate - Machine Learning Foundations - Training Badge** — **December 10, 2025**
  Amazon Web Services (AWS)
